

Training for on-the-go safety pros

Schedule and manage your OSHA meetings, records, and work-related notes on **any device** from **any location**. The training resources provided include full lesson plans, handouts, and quizzes, equipping trainers with everything needed to conduct a meaningful and compliant safety meeting.

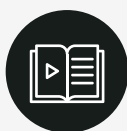

Key features:

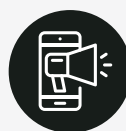

Select from hundreds of safety meeting topics to train in the office or in the field.

Review employee counts, scheduled meetings, and incident breakdowns—through a single interface.

Record notes, create new notes, and search for notes that have already occurred.

Access the tool on your computer or mobile device.

Purchase as an add-on to EHS Hero® or as a standalone tool.
