Take the guesswork out of compensation

When pay is fair, companies and their employees thrive. Yet, only 56% of employees feel they are being paid competitively with the local market, according to SHRM's 2016 Employee Job Satisfaction and Engagement Survey.

In today's competitive hiring market, top talent are more apt to leave if they don't feel like they're being adequately rewarded. Don't lose out on top talent because of disproportionate and outdated salary offerings.

HR Hero's Salary Finder ensures you have instant access to the salary data you need to make smart and competitive pay decisions right at your fingertips.
